

Are you ready for natural gas service?

Important! The natural gas ready for service card must be completed when you are ready for natural gas service and returned to us before we can begin your new service installation.

If the site is not ready when we arrive to install service, your timeline may be significantly delayed.

To be considered ready for service, you must complete the following:

- Located, marked or exposed any private buried obstructions or underground facilities – such as a well, drain tiles, septic/mound system and/or underground yard lighting – with stakes, spray paint or flags.*

Note to customer: We Energies and/or its agents will not be held responsible for damage that occurs to customer-owned underground facilities that are not properly located and marked before natural gas service installation.

- Cleared a minimum 10-foot-wide path along the service route from the property line to the meter location on my building. I've made sure things like dirt piles and construction materials aren't in the way.

- Submitted payment, if applicable.

- Prepared the ground around my building and along the service route to within 4 inches of final grade.

- Built/framed wall or foundation wall and marked exact location with spray paint, flag or stake to identify where the natural gas meter will be placed.

- Sent my signed sketch (if applicable) and informed We Energies of any planned decks, patios or pools before my service is installed. Once my service is installed, it would be my responsibility to pay any costs to move my natural gas facilities to accommodate future structures. **Note:** Building over the top of natural gas facilities (including the natural gas meter) may cause serious safety or code violations.

* If you are unable to properly locate and mark your privately owned buried facilities, you can hire a contractor to do it for you.

Natural gas ready for service card

Please complete, sign and return this card when all of the items above have been completed.

If the site is not ready when we arrive to install service, your timeline may be significantly delayed.
