CLASS OF SERVICE: GENERAL SECONDARY TOTAL ELECTRIC FULL REQUIREMENTS
SERVICE – RATE Cg 2

EFFECTIVE IN ALL AREAS SERVED IN MICHIGAN
(Continued from sheet No. 40)

CONDITIONS OF DELIVERY

1. The Company will generally furnish single-phase, 60 hertz service at 120/240 volts. Three-phase or combination single-phase and three-phase service will be furnished in accordance with the Electric Service Rules and Regulations of the Company.

2. When lighting service is furnished through one meter and power service through another, the registrations of the two meters will be added for billing purposes if the meters are installed at the same location. Where separately metered service is furnished for emergency exit lighting, fire alarm system or fire pump purposes the energy used will be accumulated and billed with the regular service, provided that it is furnished from the service connection which supplies regular service.

3. Service under this rate is for general use in commercial, industrial, and governmental establishments, including any group of three or more dwelling units which are served through one meter and comply with the Electric Service Rules and Regulations governing resale. When farming and commercial or industrial operations are combined, the applicable rate shall be determined by the predominant use of service.

4. At the request of a customer, service will be furnished under this rate at the available primary voltage by special arrangement under which the customer will agree to furnish, own and maintain at his expense all apparatus and material necessary for proper utilization of service at such voltage. In such cases the service will be metered at the supply voltage and kilowatthours registered will be reduced by 3%.

5. Energy furnished under this rate shall not be resold except as provided in the Electric Service Rules and Regulations of the company.

6. Customers who wish to operate electric generation equipment in parallel with the company’s system shall abide by the conditions of purchase for rate schedules CGS 1 and CGS 2.

See sheets 35 through 37.
CLASS OF SERVICE: GENERAL SECONDARY SERVICE – RATES Cg 1, Cg 1-C, Cg 3, Cg 3-C AND Cg 5

EFFECTIVE IN ALL AREAS SERVED IN MICHIGAN

CONDITIONS OF DELIVERY

1. The Company will generally furnish single-phase, 60 hertz service at 120/240 volts. 
   *Three-phase or combination single-phase and three-phase* service will be furnished in accordance with the Electric Service Rules and Regulations of the Company.

2. When lighting service is furnished through one meter and power service through another, the registrations of the two meters will be added for billing purposes if the meters are installed at the same location. Where separately metered service is furnished for emergency exit lighting, fire alarm system or fire pump purposes, the energy used will be accumulated and billed with the regular service provided that it is furnished from the service connection which supplies regular service. In such cases, the customer shall pay the fixed charge for each meter installed.

3. Service under this rate is for general use in commercial, industrial, and governmental establishments, including any group of three or more dwelling units which are served through one meter and comply with the Electric Service Rules and Regulations of the Company governing resale. When farming and commercial or industrial operations are combined, the applicable rate shall be determined by the predominant use of service.

4. At the request of a customer, service will be furnished under this rate at the available primary voltage by special arrangement under which the customer will agree to furnish, own and maintain at his expense all apparatus and material necessary for proper utilization of service at such voltage. In such cases the service will be metered at the supply voltage and kilowatthours registered will be reduced 3% and the measured demand will be reduced 2-1/2% for billing purposes.

5. Temporary service is available under this rate upon the payment in advance of the Company’s estimated cost of providing and installing all facilities required especially for such service, plus the estimated cost of removing such facilities, less the estimated salvage value of the property removed. In no case shall the net payment by the customer be less than $25.00.

EFFECTIVE IN ALL AREAS SERVED IN MICHIGAN

(Continued from sheet No. 35)

CONDITIONS OF DELIVERY

6. This rate applies when the Company furnishes the entire electric service requirements of a customer. The Company will, however, furnish auxiliary service hereunder to a customer who operates his power plant. If the power plant is so operated that all or any portion of the customer’s load can be served either from the power plant or from the Company’s system, the customer shall contract for a demand mutually agreed upon, but in no case less than 5 kW. The customer’s demand shall be metered, and his net monthly bill for auxiliary service shall not be less than $2.50 per kW of the highest measured demand in the twelve-month period ending with the current month, or the minimum demand specified in the contract, whichever is the greater.

7. Customers who wish to operate electric generation equipment in parallel with the Company’s system shall abide by the conditions of purchase for rate schedules CGS 1 & CGS 2.

8. The Company shall not be required to provide service facilities except as specified in paragraph 6 for any customer which are substantially in excess of that required for the customer’s regular use.

9. Energy furnished under this rate shall not be resold, except as provided in the Electric Service Rules and Regulations of the Company.

10. Except as provided by contract entered into pursuant to paragraph 6 of these conditions, the Company shall not be required to provide service as standby for other types of energy or fuel.

11. A customer who regularly uses service for periods of less than one year may pay the monthly minimum charge during the months in which he does not require service or, upon his request, service will be disconnected and the customer will pay a disconnection and reconnection charge of $25.00 if the company’s service facilities are not removed.
