(Continued from Sheet No. 30)

Central Air Conditioning Load Management Credit

A load management credit based on one of the options described below, is available to customers who voluntarily consent to interruption to central air conditioning service. This credit is restricted to customers using electric service as the principal source of energy for central air conditioning.

<u>Options</u>	<u>Bill Credit</u>
15 minutes on, 45 minutes off cycle	\$0.0968/day (based on a \$3/month credit over four billing months)
100% interruption for up to four hours per day	\$0.3226/day (based on a \$10/month credit over four billing months)
100% interruption for up to six hours per day.	\$0.4033/day (based on a \$12.50/month credit over four billing months)

CONDITIONS OF DELIVERY

See Sheet Nos. 32 through 34.

Issued: 12/18/00
Effective: For service furnished on and after 12/18/00
PSCW Authorization: Letter Dated 12/12/00

WISCONSIN ELECTRIC POWER COMPANY

Volume 19 – Electric Rates

Revision 1 Sheet 32

Amendment No. 691

Effective In All Areas Served In Wisconsin

Rate Schedule Fg 1

FARM SERVICE

CONDITIONS OF DELIVERY

- (1) The Company will furnish single-phase, 60 hertz service at 120/240 volts. Single or three-phase service at 240 volts will be furnished in accordance with the Electric Service Rules and Regulations of the Company.
- (2) When single-phase, 120/240 volt service is furnished through one meter and single-phase or three-phase, 240 volt power service through another, the registrations of the two meters will be added for billing purposes if the meters are installed at the same location.
- (3) A farm shall be defined as an agricultural enterprise wherein a tract of land is an integral part of one of the following operations from which the customer obtains a consequential income: the production and harvesting of crops, the rearing of animals, fowl or fish or meat, eggs, dairy or fur products, the operation of a nursery or wholesale greenhouse for the production of trees, shrubs, vines or similar products.
- (4) A customer who regularly uses service for periods of less than one year may pay the monthly minimum charge during the months in which he does not require service or, upon his request, service will be disconnected at the cost of disconnection and reconnection as specified in Section 406.3 of the Electric Service Rules and Regulations of the Company.
- (5) A customer shall not receive a reduced minimum charge for temporary disconnection of service. The customer will be charged for the temporary disconnection as specified in Section 406.3. If reconnected within 12 months of disconnection, the customer shall pay the minimum charge for the months of temporary disconnection as well as the cost of reconnection as specified in Section 406.3 of the Electric Service Rules and Regulations of the Company.
- (6) The Company shall not be required to provide service facilities for any customer which are substantially in excess of that required for the customer's regular use.
- (7) Energy furnished under this rate shall not be resold.

Rate Schedule Fg 1

FARM SERVICE

(Continued from Sheet No. 32)

CONDITIONS OF DELIVERY

- (7) The Company shall not be required to provide service as standby for other types of energy or fuel.
- (8) Temporary service is available under this rate schedule in accordance with the Electric Service Rules and Regulations of the Company for service to buildings under construction and eligible for the farm rate.
- (10) Customers who wish to operate electric generation equipment in parallel with the Company's system shall abide by the conditions of purchase for rate schedules COGS 1 and COGS 2.
- (11) Central air conditioning load management program is subject to the following conditions:
 - (a) Fg 1 customers south of State Highway 64 are eligible for the Central Air Conditioning Load Management Credit.
 - (b) Central air conditioning load management will be available from May 15 through September 15 between noon and 11 p.m. on weekdays, weekends and holidays.
 - (c) If a customer has two central air conditioners, both units must be under the same control option. A maximum of two units per customer may be controlled. Customers with three or more central air conditioners are not eligible.
 - (d) Customers are eligible for one credit per account for central air load control (even if two units are under control).
 - (e) Interruptions for the purpose of central air load control (not to exceed the control option selected by the customer), shall be made by means of Company installed remote-control devices. No by-pass switches or other sources of energy, which reduce the effectiveness of load control by the Company, shall be permitted.

Rate Schedule Fg 1

FARM SERVICE

(Continued from Sheet No. 33)

CONDITIONS OF DELIVERY

- (f) Customers may change central air load control credit options during the year. Customers will receive the monthly credit for the control option they are participating in at the time their bill is calculated.
- (g) The central air conditioning load management credit shall not reduce the amount of minimum charges nor the adjustment for the cost of fuel.
- (h) Customer will have the option of going off central air conditioning load management at any time. However, once off, the customer will not be eligible for the air conditioning load management credit for one year.
- (i) Central air conditioning shall be from 1 to 5 tons (12,000 to 60,000 BTU) in size. Air-to-air and ground source heat pumps are also available. The central air conditioner shall have a maximum of a 30 amp circuit. Units without a disconnect switch are not eligible. All central air conditioner installations shall be subject to Company approval.
- (j) The remote control devices will be installed between the compressor and the disconnect switch. This area must be easily accessible.
- (k) Central air load management devices shall not be installed where there is inadequate wiring or a wiring code violation.
- (l) Customer will allow Wisconsin Electric or its agent reasonable access for installing, maintaining, testing and removing the load management equipment, and for verifying that the equipment effectively controls the central air conditioner as intended.
- (m) Customers owning generating systems are not eligible.
