

WISCONSIN ELECTRIC POWER COMPANY

Volume 19 – Electric Rates

Revision 4 Sheet 145

Effective In All Areas Served In Wisconsin

Amendment No. 738

Rate Schedule Ms 1

HIGHWAY LIGHTING SERVICE

AVAILABILITY

To governmental customers contracting for secondary service for the illumination of public highways by means of customer-owned highway lighting units.

RATE

Electric Service Charge

The General Secondary Rate Schedule Cg 1 shall apply.

Minimum Charge

The monthly minimum charge shall be the facilities charge plus the meter charge.

Late Payment Charge

A one percent (1%) per month late payment charge will be applied to outstanding charges past due.

CONDITIONS OF DELIVERY

See Sheet No. 146.

WISCONSIN ELECTRIC POWER COMPANY

Volume 19 – Electric Rates

Revision 6 Sheet 146
Amendment No. 729
Rate Schedule Ms 1

Effective In All Areas Served In Wisconsin

HIGHWAY LIGHTING SERVICE

CONDITIONS OF DELIVERY

- (1) The Company will furnish single-phase, 60 hertz service at 120/240 volts. In any alternating current network district, service may be furnished at 120/208 volts depending on the location.
- (2) The Company will install standard incandescent or mercury vapor lighting units served from overhead circuits as ordered by the customer. The customer shall pay the Company its total cost of providing and installing such lighting units, including lamps, fixtures, fixture brackets or suspensions, poles, meter cabinets, control equipment and all line equipment necessary to connect the units to the Company's secondary service connection. Where it is practical to do so, more than one lighting unit may be served from one service connection.
- (3) Energy for operation of lighting units may be metered, or at the option of the Company, may be calculated on the basis of the rated capacity of the lamps and power-consuming control equipment connected by multiplying by 350 hours for the month.
- (4) The Company's standard line extension rules shall apply. In the application of such rules, only the amounts billed under the general secondary rate shall be considered.
- (5) Where the Company has secondary voltage in the area and it is not necessary to install a transformer or extend secondary lines more than one hundred and fifty feet, the Company will connect customer-owned flasher signal lamps and bill on a flat monthly rate according to the following schedule:

<u>Installed Capacity</u>	<u>Per Flasher</u>	
75 watts or less	\$3.13	R
Greater than 75 watts and up to and including 150 watts	\$5.02	R

If the Company must install a transformer or extend lines more than one hundred and fifty (150) feet or if the installed capacity exceeds 150 watts, the flasher signals will be billed on the general secondary rate applicable in the area served. A prorated Point Beach Sale Credit is applicable to flashers.

Revision 0 Sheet 148

Effective In All Areas Served In Wisconsin

Amendment No. 652

Rate Schedule Ms 2

INCANDESCENT STREET LIGHTING SERVICE

CONDITIONS OF DELIVERY

1. General

- (1) The Company will deliver single-phase, 60 hertz service to customer-owned street lighting systems at the most conveniently available primary voltage but in no case less than approximately 2,200 volts.
- (2) This rate contemplates lamps being lighted every night from approximately 30 minutes after sunset to 30 minutes before sunrise providing dusk-to-dawn operation. The control of customer-owned lamps shall be the responsibility of the customer.
- (3) The amount of energy furnished shall generally be determined by means of meters installed on the primary side of constant-current transformers serving series street lighting circuits or on the secondary side of constant-voltage transformers serving multiple circuits. In the latter case, meter registration shall be increased by 3 percent to compensate for transformer losses. All energy used by each governmental unit under this rate shall be combined for billing purposes.
- (4) Where the installation of metering equipment is impractical, the Company may determine the amount of energy used during any month by multiplying the rated kilowatt capacity of all lamps and accessory equipment, plus 5 percent for losses, by 350 hours for the month.
- (5) Electric service will not be furnished under this rate for breakdown or standby purposes where another source of power is available to the customer.

(Continued to Sheet No. 147)

Issued: 12/18/00

Effective: For service furnished on and after 12/18/00

Effective In All Areas Served In Wisconsin

Amendment No. 652

Rate Schedule Ms 2

INCANDESCENT STREET LIGHTING SERVICE

(Continued from Sheet No.148)

CONDITIONS OF DELIVERY

- (6) Energy furnished under this rate shall not be used for purposes other than those specified hereunder and shall not be resold.
 - (7) Street lighting service is available in only those communities where the Company has a general distribution system installed for light and power service.
2. Customer-Owned Systems
- (1) The Company will furnish energy hereunder at primary voltage for the operation of a standard street lighting system which is owned, operated and adequately maintained by the customer.
 - (2) Customer-owned systems shall be designed and operated to provide an average power factor or not less than 85 percent at the points where energy is delivered.
3. Other Authorized Applications for Street Lighting Customers
- (1) A customer using street lighting service may purchase energy at primary voltage at the foregoing energy charge for operation of traffic signals and for public park and playground purposes. If a line extension is required, the regular line extension rules shall apply.
 - (2) A customer using street lighting service may also purchase energy at primary voltage at the foregoing energy charge for water and sewage pumping service, under the following conditions:
 - (a) Service under this rate will continue to be available to sewage and water pumping installations taking service under it as of October 11, 1980. Service is not available under this rate for such purposes to a successive customer or new installation.

Revision 0 Sheet 150

Effective In All Areas Served In Wisconsin

Amendment No. 652

Rate Schedule Ms 2

INCANDESCENT STREET LIGHTING SERVICE

(Continued from Sheet No. 149)

CONDITIONS OF DELIVERY

- (b) Such service will be furnished at the Company's most conveniently available voltage but in no case at a voltage lower than approximately 2,200 volts. The customer shall furnish the necessary substation, including all transformation, switching and protection equipment required to utilize this service. The construction of such substation shall be in accordance with the Electric Service Rules and Regulations of the Company.
- (c) The Company may provide for the measurement of energy on the secondary side of the customer's transformers and add 3 percent to the registration of the meters to compensate for transformer losses.
- (d) The Company may require the customer to install approved limiting devices to limit the use of service at any or all of its pumping stations to off-peak hours. Such limiting devices shall be of a type which will permit the use of service during emergencies such as in the event of fire or broken mains.
- (e) Pumping service shall be available for periods of one year or longer, but only for periods during which the customer receives street lighting service hereunder.
- (f) If a line extension is required, the regular line extension rules shall apply.
- (g) For billing purposes, energy purchased under this rate for pumping water or sewage may be combined with that purchased for street lighting purposes. Energy supplied for the operation of traffic signals and for public park and playground purposes may also be combined when it is delivered at locations within or adjoining areas receiving street lighting service hereunder.

Rate Schedule Ms 3

STANDARD SODIUM AND METAL HALIDE STREET LIGHTING SERVICE

CONDITIONS OF DELIVERY

- (1) The Company will furnish, install, own and operate a standard high pressure sodium or metal halide lighting unit, and will supply all electric energy and normal maintenance for the operation of the unit. The standard street lighting unit shall consist of a cobra head fixture on an arm mounted on an existing Company-owned wood pole, with a control device wired for operation. This rate requires use of existing Company-owned wood poles and available overhead 120-volt service. Where additional primary and/or secondary facilities are required, the Customer shall pay the full cost of installation less the appropriate embedded credit.
- (2) When necessary, the Customer shall grant or obtain permissions, easements, ordinance satisfaction, and/or permits to the Company to install/remove lighting facilities on public or private property without expense to the Company. The Customer is responsible for marking all privately owned underground facilities. If such facilities are not marked correctly and are subsequently damaged, the Customer is responsible for damages. All installations shall be in accordance with the construction standards of the Company and any other codes the Company determines to be applicable.
- (3) Lamps will automatically be switched on approximately 30 minutes after sunset and off 30 minutes before sunrise, providing dusk-to-dawn operation of approximately 4200 hours per year. Non-standard, part-night, temporary or seasonal service is not available under this rate.
- (4) The Company will initiate a first response to replace inoperative lamps and otherwise maintain luminaries during regular daytime work hours within 72 hours after notification by the Customer. Conditions may require repeat visits to complete repairs. No credit will be allowed for periods during which lamps are out of service. R
- (5) In the event of abnormal or excessive maintenance due to frequent vandalism or other causes not related to the quality of material or workmanship, the Customer shall reimburse the Company for all associated costs.
- (6) The Company will, at Customer's expense, modify, replace, transfer, relocate or temporarily remove and reinstall any properly operating poles or fixtures contracted for under this rate as requested in writing by the Customer or as required by a governing authority. R
- (7) The lighting agreement shall continue in force until terminated upon 30 days' prior written notice given by either of the parties to the other. The Company may remove any and/or all lighting facilities upon termination.

STANDARD SODIUM AND METAL HALIDE STREET LIGHTING SERVICE

(Continued from Sheet No. 153)

CONDITIONS OF DELIVERY

- (8) If the Customer or a governing authority terminates service or requests the permanent removal of any Company-owned street lighting facilities within 60 months of installation, the Customer shall pay the lesser of the estimated labor charges for installation and removal of the equipment, or the remaining balance of monthly fees to satisfy the 60 month period. Permanent removal of pole mounted street lighting facilities more than 60 months after installation shall be at no cost to the Customer. **R**

- (9) Subject to Company approval, the Company will allow municipal customers to make temporary attachments of Christmas lighting and/or decorations on Company-owned light poles. The Customer must execute an annual agreement for such attachments, and must meet all conditions thereof. Estimated energy consumptions will be billed under the current CG1 Energy rate. Time and material charges for installation, removal or associated maintenance may also apply. **R**

- (10) Electric service will not be furnished hereunder for breakdown or standby purposes where another source of power is available to the customer. Energy furnished under this rate shall not be used for purposes other than those specified hereunder and shall not be resold.

- (11) Customer shall indemnify and hold harmless the Company, from and against any and all liability for injuries or damages to persons or property arising or resulting from (a) any interruption or modification of service requested or caused by the Customer; or (b) any lighting, requested by Customer or third party, which does not conform to the Illuminating Engineering Society (IES) Recommended Practices.

NON-STANDARD STREET AND AREA LIGHTING SERVICE

CONDITIONS OF DELIVERY

- (1) The Company will furnish, install, own and operate a complete non-standard lighting unit and will supply all electric energy and normal maintenance for the operation of the unit. A lighting unit may consist of a pole and/or luminaire with a bracket, lamp and control device wired for operation. The unit may be fed overhead or underground. Where additional primary and/or secondary facilities are required, the Customer shall pay the full cost of installation. R

- (2) When necessary, the Customer shall grant or obtain permissions, easements, ordinance satisfaction, and/or permits to the Company to install/remove lighting facilities on public or private property without expense to the Company. The Customer is responsible for marking all privately owned underground facilities. If such facilities are not marked correctly and are subsequently damaged, the Customer is responsible for damages. All installations shall be in accordance with the construction standards of the Company and any other codes the Company determines to be applicable.

- (3) Lamps will automatically be switched on approximately 30 minutes after sunset and off 30 minutes before sunrise, providing dusk-to-dawn operation approximately 4,200 hours per year. Part-night, temporary or seasonal service is not available under this rate.

- (4) The Company will initiate a first response to replace inoperative lamps and otherwise maintain luminaires during regular daytime work hours within 72 hours after notification by the Customer. Conditions may require repeat visits to complete repairs. No credit will be allowed for periods during which lamps are out of service. R

- (5) The Company will, at Customer's expense, modify, replace, relocate, change the position or temporarily remove and reinstall any properly operating Company-owned poles or fixtures contracted for under this rate as requested in writing by the Customer or as required by a governing authority. Replacement of lighting units and their major components after 20 years of service is at the discretion of the Company and may require a new lighting contract/agreement between the Company and Customer. R

- (6) In the event of abnormal or excessive maintenance due to frequent vandalism or other causes not related to the quality of material or workmanship, the Customer shall reimburse the Company for all associated costs.

- (7) The lighting agreement shall continue in force until terminated upon 30 days' prior written notice given by either of the parties to the other. The Company may remove any and/or all lighting facilities upon termination.

STANDARD AREA LIGHTING SERVICE

CONDITIONS OF DELIVERY

- (1) The Company will furnish, install, own and operate a standard high pressure sodium or metal halide area or flood lighting unit and will supply all electric energy and normal maintenance for the operation of the unit. The standard lighting unit will consist of an open bottom or cobra head area light fixture on a 2 to 6 foot arm or directional floodlight on a 2 foot arm, mounted on an existing Company-owned wood pole, with a control device wired for operation. This rate requires use of existing Company-owned wood poles and available overhead 120 volt service. Where additional primary and/or secondary facilities are required, the Customer shall pay the full cost of installation.
- (2) New poles required solely for lighting, are not available under this rate. Lighting poles and circuit being provided by the Company prior to January 26, 2006, will continue to be provided for a monthly charge of \$2.57 for each pole and \$2.15 for each span of circuit installed.
- (3) When necessary, the Customer shall grant or obtain permissions, easements, ordinance satisfaction, and/or permits to the Company to install/remove lighting facilities on public or private property without expense to the Company. The Customer is responsible for marking all privately owned underground facilities. If such facilities are not marked correctly and are subsequently damaged, the Customer is responsible for damages. ALLEY LIGHTING SERVICE -- CUSTOMER-OWNED

CONDITIONS OF DELIVERY

- (1) The Company will furnish energy hereunder at a secondary voltage for the operation of a standard alley lighting system which is owned, operated and adequately maintained by the customer.
- (2) The customer will furnish, install, and own a complete street lighting unit consisting of a luminaire mounted on a bracket, with lamp, ballast, control device wired for operation. This rate contemplates use of existing Company-owned wood poles and availability of overhead, 120-volt service where the Company has such facilities along alleys. Line extensions shall be in accordance with the extension rules of the Electric Service Rules and Regulations of the Company. All installations shall be in accordance with the construction standards of the Company.
- (3) This rate contemplates lamps being lighted from approximately 30 minutes after sunset to 30 minutes before sunrise, providing dusk-to-dawn operation of approximately 4200 hours per year. The customer will provide suitable control devices. Street lighting, ornamental, part-night, or seasonal service is not available under this rate.
- (4) The customer will replace inoperative lamps and otherwise maintain luminaires. No credit will be allowed for periods during which lamps are out of service.
- (5) If the customer terminates service of any customer-owned overhead alley lighting facilities the customer shall notify the Company in writing within three working days after the disconnection.
- (6) Energy furnished under this rate shall not be used for purposes other than those specified hereunder and shall not be resold.
- (7) Alley lighting service is available in only those communities where the Company has a general distribution system installed for light and power service.
- (8) The customer shall pay for any overhead or underground line extension from the connection point to the alley lighting unit in accordance with current applicable rules.

Issued: 12/18/00

Effective: For service furnished on and after 12/18/00

PSCW Authorization: Letter Dated 12/12/00

WISCONSIN ELECTRIC POWER COMPANY

Volume 19 – Electric Rates

Revision 8 Sheet 164

Effective In All Areas Served In Wisconsin

Amendment No. 738

Rate Schedule St 1

OPTIONAL TIME-OF-USE STREET LIGHTING SERVICE

AVAILAILITY

This rate will be available on an optional basis to governmental units contracting for secondary street lighting service, for the purpose of illuminating public thoroughfares by means of customer-owned street lighting units.

RATE

Facilities Charge, per meter:

Single-Phase	\$.26175 per day
Three-Phase	\$.52350 per day

Energy Charge, per kWh

On-Peak Energy (a)	\$.24818
Off-Peak Energy (b)	\$.04548

- (a) Street lighting on-peak energy usage is the energy in kilowatt hours delivered between 7:00 a.m. and 9:00 p.m., prevailing time, Monday through Friday, excluding those days designated as legal holidays for New Years' Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.
- (b) Street lighting off-peak energy usage is the energy in kilowatt hours delivered during all hours other than on-peak hours.

Adjustment for Cost of Fuel
See Sheet Nos. 19 and 20.

Meter Charge

The monthly meter charge for each meter in excess of one shall be \$.04110 per day.

Minimum Charge

The monthly minimum charge shall be the facilities charge plus the meter charge.

Effective In All Areas Served In Wisconsin

Amendment No. 691

Rate Schedule St 1

OPTIONAL TIME-OF-USE STREET LIGHTING

(Continued from Sheet No. 164)

Late Payment Charge

A one percent (1%) per month late payment charge will be applied to outstanding charges past due.

CONDITIONS OF DELIVERY

- (1) The Company will furnish energy hereunder at a secondary voltage for the operation of a standard street lighting system which is owned, operated and adequately maintained by the customer.
- (2) At the request of a customer, service will be furnished under this rate from an available primary line of adequate capacity by special arrangement. In such cases the service may be metered at the primary supply voltage. If so the kilowatt hours registered will be reduced 3 percent for billing purposes.
- (3) If the customer does own and is responsible for maintaining the transformer the kilowatt hours registered will be reduced by 2% for billing purposes.
- (4) The customer will furnish, install, and own a complete street lighting unit consisting of a luminaire mounted on a bracket, with lamp, ballast, control device wired for operation, poles and all equipment necessary to connect the units to the Company's secondary service connection (or primary service connection under item 2 above).
- (5) The customer will replace inoperative lamps and otherwise maintain luminaires and associated equipment. No credit will be allowed for periods during which lamps are out of service.
- (6) If the customer terminates service of any overhead street lighting facilities, the customer shall notify the Company in writing within three working days after the disconnection. Service will be disconnected at the cost of disconnection as specified in Section 406.3 of the Electric Service Rules and Regulations of the Company.

Amendment No. 691

Rate Schedule St 1

OPTIONAL TIME-OF-USE STREET LIGHTING SERVICE

(Continued from Sheet No. 165)

- (7) A customer who uses service for a period of less than 12 months shall pay the monthly minimum charge during the months in which service is not required, up to 12 months.
- (8) A customer shall not receive a reduced minimum charge for temporary disconnection of service. The customer will be charged for the temporary disconnection as specified in Section 406.3. If reconnected within 12 months of disconnection, the customer shall pay the minimum charge for the months of temporary disconnection as well as the cost of reconnection as specified in Section 406.3 of the Electric Service Rules and Regulations of the Company. **R**
- (9) Energy furnished under this rate shall not be used for purposes other than those specified hereunder and shall not be resold.
- (10) Street lighting service is available only in those communities where the Company has a general distribution system installed for light and power service.
- (11) The customer shall pay for any overhead or underground line extension in accordance with current applicable rules. Underground service is not available under this rate unless the customer pays the complete cost of the necessary service facilities. All installations shall be in accordance with the construction standards of the Company.
- (12) The Company shall not be required to provide service facilities for any customers which are substantially in excess of that required for the customer's regular use.
- (13) Lighting systems shall be designed and operated to provide an average power factor of not less than 85 percent at the points where energy is delivered.
- (14) Customers who wish to operate generation equipment in parallel with the Company's system shall abide by the conditions of purchase for rate schedules COGS 1 and COGS 2.
