Amendment No. 652

Rate Schedule AI 1

ALLEY LIGHTING SERVICE -- CUSTOMER-OWNED

CONDITIONS OF DELIVERY

- (1) The Company will furnish energy hereunder at a secondary voltage for the operation of a standard alley lighting system which is owned, operated and adequately maintained by the customer.
- (2) The customer will furnish, install, and own a complete street lighting unit consisting of a luminaire mounted on a bracket, with lamp, ballast, control device wired for operation. This rate contemplates use of existing Company-owned wood poles and availability of overhead, 120-volt service where the Company has such facilities along alleys. Line extensions shall be in accordance with the extension rules of the Electric Service Rules and Regulations of the Company. All installations shall be in accordance with the construction standards of the Company.
- (3) This rate contemplates lamps being lighted from approximately 30 minutes after sunset to 30 minutes before sunrise, providing dusk-to-dawn operation of approximately 4200 hours per year. The customer will provide suitable control devices. Street lighting, ornamental, part-night, or seasonal service is not available under this rate.
- (4) The customer will replace inoperative lamps and otherwise maintain luminaires. No credit will be allowed for periods during which lamps are out of service.
- (5) If the customer terminates service of any customer-owned overhead alley lighting facilities the customer shall notify the Company in writing within three working days after the disconnection.
- (6) Energy furnished under this rate shall not be used for purposes other than those specified hereunder and shall not be resold.
- (7) Alley lighting service is available in only those communities where the Company has a general distribution system installed for light and power service.
- (8) The customer shall pay for any overhead or underground line extension from the connection point to the alley lighting unit in accordance with current applicable rules.
