Revision 1 Sheet 165

Effective In All Areas Served In Wisconsin

Amendment No. 691

Rate Schedule St 1

OPTIONAL TIME-OF-USE STREET LIGHTING

(Continued from Sheet No. 164)

Late Payment Charge

A one percent (1%) per month late payment charge will be applied to outstanding charges past due.

CONDITIONS OF DELIVERY

- (1) The Company will furnish energy hereunder at a secondary voltage for the operation of a standard street lighting system which is owned, operated and adequately maintained by the customer.
- (2) At the request of a customer, service will be furnished under this rate from an available primary line of adequate capacity by special arrangement. In such cases the service may be metered at the primary supply voltage. If so the kilowatt hours registered will be reduced 3 percent for billing purposes.
- (3) If the customer does own and is responsible for maintaining the transformer the kilowatt hours registered will be reduced by 2% for billing purposes.
- (4) The customer will furnish, install, and own a complete street lighting unit consisting of a luminaire mounted on a bracket, with lamp, ballast, control device wired for operation, poles and all equipment necessary to connect the units to the Company's secondary service connection (or primary service connection under item 2 above).
- (5) The customer will replace inoperative lamps and otherwise maintain luminaires and associated equipment. No credit will be allowed for periods during which lamps are out of service.
- (6) If the customer terminates service of any overhead street lighting facilities, the customer shall notify the Company in writing within three working days after the disconnection. Service will be disconnected at the cost of disconnection as specified in Section 406.3 of the Electric Service Rules and Regulations of the Company.

Amendment No. 691

Rate Schedule St 1

OPTIONAL TIME-OF-USE STREET LIGHTING SERVICE

(Continued from Sheet No. 165)

- (7) A customer who uses service for a period of less than 12 months shall pay the monthly minimum charge during the months in which service is not required, up to 12 months.
- (8) A customer shall not receive a reduced minimum charge for temporary disconnection of service. The customer will be charged for the temporary disconnection as specified in Section 406.3. If reconnected within 12 months of disconnection, the customer shall pay the minimum charge for the months of temporary disconnection as well as the cost of reconnection as specified in Section 406.3 of the Electric Service Rules and Regulations of the Company. **R**
- (9) Energy furnished under this rate shall not be used for purposes other than those specified hereunder and shall not be resold.
- (10) Street lighting service is available only in those communities where the Company has a general distribution system installed for light and power service.
- (11) The customer shall pay for any overhead or underground line extension in accordance with current applicable rules. Underground service is not available under this rate unless the customer pays the complete cost of the necessary service facilities. All installations shall be in accordance with the construction standards of the Company.
- (12) The Company shall not be required to provide service facilities for any customers which are substantially in excess of that required for the customer's regular use.
- (13) Lighting systems shall be designed and operated to provide an average power factor of not less than 85 percent at the points where energy is delivered.
- (14) Customers who wish to operate generation equipment in parallel with the Company's system shall abide by the conditions of purchase for rate schedules COGS 1 and COGS 2.
