Suggestions for Making and Decorating Christmas Cookies, Fruit Cake and Plum Pudding Recipes

## 

### A. GENERAL DIRECTIONS FOR CHRISTMAS BAKING

1. Read entire recipe first.

2. Assemble all ingredients.

3. Have ingredients room temperature for best results.

**4.** Sift flour and powdered sugar once before measuring.

5. Use standard measuring cups and spoons. Level all measurements.

### B. FRUIT CAKES

1. If any substitutions of fruits or nuts are made in a recipe be sure to use same number of pounds or cups of fruit and nuts as called for in original recipe. 2. For variety of shapes, cakes may be baked in round, square, oblong or individual pans, or ring molds.

**3.** In an **electric** oven, fruit cakes may be decorated with glazed fruits, angelique (candied rhubarb) and nuts **before** baking.

**4.** Bake fruit cakes according to Time Chart or use cake tester to determine length of baking period.

5. When cakes are baked and still slightly warm, remove from pans and take off waxed paper. Let cool over night. Melted Apricoting or other fruit cake glazes may be brushed over cake to improve appearance.

6. To store fruit cakes, wrap well in cellophane or waxed paper and store in air tight containers. Cakes may be unwrapped and brandy poured over them occasionally, to improve the flavor.

### C. COOKIES

1. A pastry set, consisting of a canvas and rolling pin cover, is convenient for rolling cookies and handling soft doughs.

2. Best results are obtained with tin or aluminum cookie sheets. Shallow pans are preferable to deep pans.

3. Cookies may be decorated with colored sugars, cinnamon, candies, silver balls, candied fruits, angelique, colored coconut, raisins and nuts. Decorate cookies as soon as they are frosted with boiled, seven minute, butter or confectioner's frosting.

**4.** Crisp, rich cookies are best stored in cardboard boxes lined with waxed paper. Other cookies keep better in covered tins or crockery jars.
