

Gift of Energy

Give the Gift of Energy by paying a portion of someone's energy bill — a practical and convenient gift for any occasion. Simply complete the form at **we-energies.com** and mail it to us with a check for any amount. You choose whether we mail the certificate to you or the recipient. The amount is credited to the recipient's bill.

No fees apply.

Highlighting our sustainability efforts

WEC Energy Group, parent company of Upper Michigan Energy Resources, released its 2024 Corporate Responsibility Report, which outlines the progress made on major projects and our commitment to the environment and the communities we serve.

Carbon monoxide (CO) alarms have a life expectancy of around seven years. A CO alarm that chirps intermittently every 30-60 seconds could be at the end of its life. If the alarm sounds continuously, CO could be present. Get everyone out and call 911.

A reminder about your utility

While Upper Michigan Energy Resources is your energy provider, your bill comes from We Energies and you participate in We Energies programs, payment plans and customer service options.

Contact us at **800-242-9137** whenever we can assist you with your energy service.

See shifts in average temperature.

Use data to look for trends and make adjustments

App or website

No matter which online option you choose, you'll find all of your bill details and a link to our monthly bill inserts.

Check as you deck the halls

We're approaching the season for outdoor holiday displays. As you deck the halls, check for safety:

- ✓ Make sure there are no overhead power lines near ladders. Lower the ladder before you move it.
- ✓ Don't overload extension cords. Make sure they are approved for outdoor use.

Don't forget energy efficiency. LED lights use up to 80% less energy than traditional lights and have a longer life span.

Use our holiday lighting calculator and find more holiday safety and energy-saving tips at www.we-energies.com/savings/tips/holiday

Plan ahead for winter

Increased energy bills in November, December and January are common, mainly due to colder weather. You're also likely to host more events — which may include decorating with lights and cooking for guests.

Manage your energy costs

- Check out our energy-saving tips and videos.
- Sign up for Budget Billing to help even out seasonal variations in your bill.
- Apply for energy assistance, if eligible.

Use our **app** or go to www.we-energies.com/savings to get started.
