

sign a service agreement, with a minimum annual steam usage of 25,000 M lbs. Service under this rate is subject to interruption upon three hours' advance notice to the customer.

Rate

Customer Charge.....\$3.13 per day for each meter or service connection

Customer Demand Charge\$0.96115 per thousand pounds (M lbs.), per day, for all customer demand

The Company will calculate the average M lbs. per day for the current billing period. The customer's demand for the current billing period is the highest average M lbs. per day that occurred during the current or preceding 11 billing periods.

Energy Charge.....\$13.68778 per thousand pounds (M lbs.)

Fuel Cost Adjustment

The foregoing energy charge rate is based on the cost of fuel delivered in the Company's steam service plants of \$4.53026 per million Btu. Whenever the monthly cost of fuel is more or less than that cost, the energy charge rate per M lb. of steam shall be correspondingly increased or decreased 1.048 cents for each 1 cent increase or decrease in the cost to the Company of 1 million Btu.

Minimum charge

The monthly minimum charge is the Customer Charge, the Customer Demand Charge and the minimum annual charge. The minimum annual charge is the charge for steam applied to the minimum annual steam usage as stated in the contract.

Service charges

A 1% per month late payment charge applies to the above rate classes and will be added to outstanding charges past due. A \$15 service fee is charged for all returned checks, plus additional bank charges that may be incurred.

Energy Charge.....\$5.16743 per thousand pounds (M lbs.)

Condensate Return Water

Quantity Credit per Thousand Pounds (M lbs.) for all condensate returned as outlined in the rate schedule.....\$0.17892

Condensate Return Water

Quality Credit per Thousand Pounds (M lbs.) for all condensate that meets the quality standards as outlined in the rate schedule.....\$0.41151

Fuel Cost Adjustment

The foregoing energy charge rate is based on a cost of fuel delivered in the Company's steam service plants of \$4.53026 per million Btu. Whenever the monthly cost of fuel is more or less than that cost, the energy charge rate per M lb. of steam shall be correspondingly increased or decreased 1.048 cents for each 1 cent increase or decrease in the cost to the Company of 1 million Btu.

Minimum charge

The monthly minimum charge is the greater of the Customer Charge or the minimum charge as stated in the contract, plus the Customer Demand Charge.

(Ag3) Economic Development Rate

(Low- and High-Pressure Steam)

Available to new customers whose premises are located within the steam service territory for high-pressure or low-pressure steam service with a minimum annual steam usage of 100 M lbs. and who sign a service agreement. This rate is not available to existing steam service customers. Customers cannot transfer load from another site within the steam service territory in order to take service under this rate schedule. Rate participation is limited to a maximum annual steam usage of 250,000 M lbs. unless otherwise approved by the Company.

Customers must attest under oath that but for the Ag3 rate, they would not have added load within the Company's steam service territory.

Rate

Customer Charge...\$3.13 per day for each meter or service connection

Customer Demand Charge\$0.96115 per thousand pounds (M lbs.), per day, for all customer demand

The Company will calculate the average M lbs. per day for the current billing period. The customer's demand for the current billing period is the highest average M lbs. per day that occurred during the current or preceding 11 billing periods.

Energy Charge

The applicable energy charge is based on the length of time the customer is receiving service under the Ag3 rate schedule.

Months 1 to 60: \$8.29054 per thousand pounds (M lbs.)
Months 61 to 120: \$10.6572 per thousand pounds (M lbs.)
Months 121 to 180: \$12.77155 per thousand pounds (M lbs.)

Beginning with Month 181, the customer will be transferred from the Ag3 rate schedule to the Ag1 rate schedule.

Fuel Cost Adjustment

The foregoing energy charge rates are based on a cost of fuel delivered in the Company's steam service plants of \$4.53026 per million Btu. Whenever the monthly cost of fuel is more or less than that cost, the energy charge rate per M lb. of steam shall be correspondingly increased or decreased 1.048 cents for each 1 cent increase or decrease in the cost to the Company of 1 million Btu.

Minimum Charge

The monthly minimum charge is the greater of the Customer Charge or the minimum charge as stated in the contract, plus the Customer Demand Charge.

(Ag4) Non-Firm Service

(Low and High Pressure Steam)

Available to customers whose premises are located within the steam service territory and who contract for non-firm high-pressure or low-pressure steam service and
