Dear Public Safety Official:

As a follow-up to our recent Emergency Response-Dispatch meetings, you understand the importance of pre-planning when it comes to knowing how to contact us during an emergency. For that reason, we want to provide you with our service territory map and emergency response dispatch instructions with phone numbers dedicated to public safety agencies. In addition, we have enclosed a copy of our first responders handbook. Please pass this information along to those who need it.

Copies of these resources, along with other information for public safety agencies, may be obtained by visiting www.we-energies.com/firstresponders or by calling 414-221-5147.

For your easy reference, our dedicated electric and natural gas numbers for public safety agencies and for the general public are listed below:

Public Safety Agency Only*

Electric Emergency 888-296-4937
 Natural Gas Emergency 800-292-7098

General Public

Electric Power Outage or Emergency 800-662-4797
 Natural Gas Leak Line 800-261-5325

These are the only numbers you should use to contact us.

*Please do not share the designated public safety agency numbers with non-emergency providers. These “silent,” non-published phone numbers are only effective if they are not publicly available.

Thank you for your support and cooperation as we work to enhance the service we provide. Please call us if you have questions.

Sincerely,

John Nesbitt
 Manager – Electric Operations
 262-574-6291

Elizabeth Jost
 Manager – Gas Central Dispatch
 414-389-4345
