

Are you ready for electric service?

Important!

The electric ready for service card must be completed, signed and returned to us before we can begin your new service installation.

If the site is not ready when we arrive to install service, your timeline may be significantly delayed.

To be considered ready for service, check the boxes to confirm that you have completed the following:

- ☐ Confirmed all well, drain tiles, septic/mound system, underground yard lighting and/or sprinkler systems are marked clearly with stakes, spray paint or flags.

We Energies and/or its agents will not be held responsible for damage to customer-owned underground facilities that are not properly located and marked before electric service installation. If you are unable to properly locate and mark those buried facilities, you can hire a contractor to do it for you.

- ☐ Cleared a minimum 10-foot wide path along the service route from the property line to the marked meter location on the building. Dirt piles and construction materials are out of the way.

We Energies WILL NOT remove any obstacles from construction site.

- ☐ Installed We Energies-approved meter socket, pedestal or CT cabinet at the agreed-upon location marked on site sketch.

This applies to both underground and overhead services.

- ☐ Prepared ground around building and along the service route to within 4 inches of final grade (applies to underground service only).

The owner of the property, or responsible party, will pay for any relocation or repair costs incurred by We Energies due to grade changes in excess of 4 inches.

- ☐ Sent **signed site sketch and payment** (if applicable) and informed We Energies of any future plans for deck, patio or pool.

Once service is installed, costs for moving electric facilities to accommodate new structures will be your responsibility. Building over the top of electric facilities (including the meter) may cause serious safety or code violations.

- ☐ **I understand that my service will not be energized until We Energies receives my municipal inspection.**

Electric ready for service card | Please complete, sign and return this card when all of the items above have been completed.

If the site is not ready when we arrive to install service, your timeline may be significantly delayed.

Name: _____
(please print)

Installation address: _____
(please print)
