Authorization			
I certify that I own or am th	e authorized representative of th	e person(s) who owns the propert	v indicated in this application. I certify the

I certify that I own or am the authorized representative of the person(s) who owns the property indicated in this application. I certify the information provided is accurate and I will promptly inform We Energies of any plan revisions. If installation requirements differ from what is submitted on this application, I understand these changes may result in an increased cost to me. I also understand a daily customer charge will be included in my monthly bill and begins the day the natural gas meter is installed, whether or not natural gas is being used.

Signature:	Date:	/	_/
Printed name:			

Remember: Involve your builder and contractors when filling out this application. They will be able to make sure your application is accurate. Also, make sure your application is signed to avoid delays.

What we need from you:

- 1. Application*
- Plat of survey and/or site sketch.* Example and instructions on next page.
- 3. Elevation plans. Need based on property grade. Request from builder.

Return instructions:

Email: co-non-design-central@we-energies.com Mail: We Energies, Central Group, PO Box 2046, Milwaukee, WI 53201 Fax: 262-574-6401 or 800-632-1460

When we receive your application, you will receive a confirmation email. We look forward to working with you.

*Required

Natural gas and construction property site sketch

Service address:

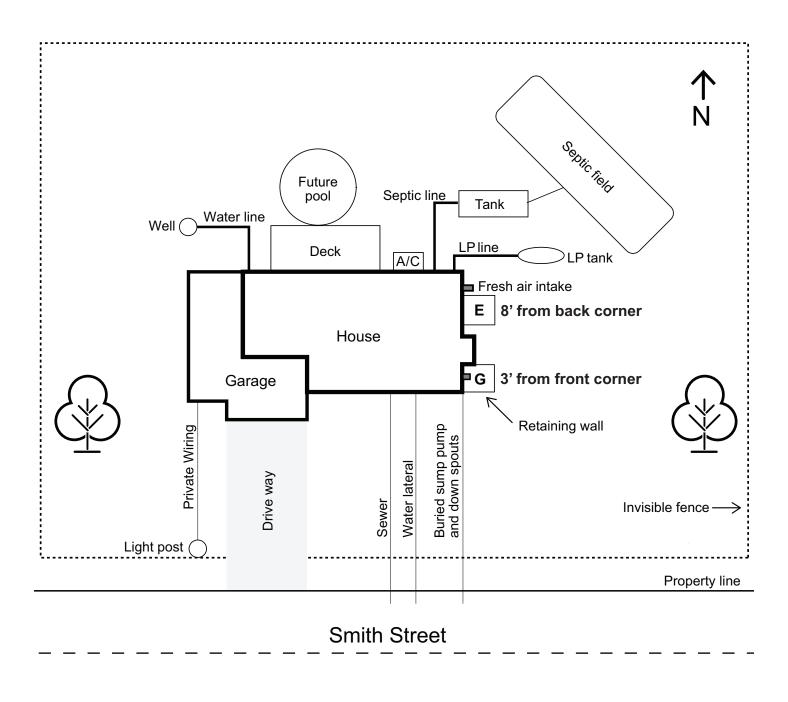

Location of customer-owned facilities: We need a plat of survey and/or site sketch with this application. Mark the following on the plat and or/sketch: **Meter locations**: "G" for gas. **Distance:** (In feet) from the nearest corner of the building to desired meter locations. **Additional items:** Show applicable items from list below. Example on next page.

locations. Additional items: Show applications	able items from list below.	Example on next page.

PROPERTY SITE SKETCH		a property line to front of house. In property line to side of house with meter(s).	N

Example site sketch

400 feet from property line to front of house.

200 feet from property line to side of house with meter(s).

NATURAL GAS METERS

- The National Fuel Gas Code (NFPA 54), manufacturer guidelines, and industry best practices require certain clearances be maintained from the natural gas meter assembly to sources of ignition, air intakes, windows/ doors, structures, etc.
- We prefer a 10-foot clearance from the natural gas meter assembly in the cases of sources of ignition and air intakes, including doors and windows.
- If a 10-foot clearance is not practical, a 3-foot clearance is the minimum distance that must be maintained.

- Windows that cannot be opened are exempt from clearance requirements.
- The assembly shall not be located directly below exhaust vents that may produce condensation that can drip on to the meter assembly.
- In unique situations where these requirements cannot be met, your service representative will discuss options with you.
