- Wisconsin Electric Gas Operations

Account name: _____

Service address: _____

City, State, ZIP: _____

Customer contact name: _____

Customer contact phone: _____ Customer contact email: _____

Account number: _____ **Meter number:** _____

- Please provide pulse signal device service for the meter above. (Service begins on the first day of the month after all tariff requirements are met.) The below info is effective 01/01/2020.
 - The meter above is for a current transportation service customer or interruptible sales service customer with telemetry in place. (Fee will be \$400 for initial installation and \$.10/day ongoing.)
 - The meter above is **not** for a current transportation customer or interruptible sales service customer with telemetry in place. (Fee will be \$400 for initial installation, \$0.20 daily telemetry fee and \$.10/day ongoing.)
- Please discontinue our current pulse signal device service for the meter above. (Service will end on the first of the upcoming month, provided we receive this notice at least three business days in advance.)

Note: Application must be made in advance of requested start date to ensure administrative and tariff requirements are met. Equipment installation will be on a best efforts basis. Please call your gas service manager or the Wholesale Energy Marketing / Gas Transportation Group at 414-221-3194 for information.
